Message from Chairman

Progress for us has never been a dream. It has always been a distant reality. When one milestone is achieved, there is always another one waiting to be crossed. It is with this belief that, we started Agson Industries Pvt Ltd in 2001, a company that was in the business of Lead Acid Inverter Batteries. Almost instantly Agson Industries Pvt Ltd became a prominent name in its business segment, but like every entrepreneur sticks to their dream, we always wanted to push our company to more prosperous milestones. We are confident that, the company will continue to scale milestones of excellence for years to come.

Jagdeep Aggarwal
